

# Hospital Operations Executive

Programme offered by Apollo MedSkills and digitally enabled by TCS iON

### Potential Job Opportunities

10,000+ job opportunities across various hospitals

### Earning Potential

Potential to earn an average salary of ₹ 2.0 LPA to ₹ 4.0 LPA

### Employment Sector

Hospitals, Large Pharmacy Chains, Pharmacy Warehouses and Others

Executives in the hospital management and patient-care play a vital role in the frontline workforce category. They bridge the gap between the clinical, non-clinical and administrative procedures in the hospital that complements the efforts of the hospital management team to ensure better patient-care delivery at all times and at every step. Hospital Operations Executives best understand the quality standards to be maintained in the hospital, using technology, clinical aspects and also the financial implications.

This course will help them build their career as a customer relations executive, patient services executive, outpatient services executive and inpatient services executive.
